¹ Initial application and registration fees and monthly membership fees are subject to GST/HST.

² Other than as otherwise noted, TSXV Trading Fees are GST/HST exempt.

³ No opening trade fees are charged in respect of a market-wide "re-open".

⁴ Fee cap eligibility is based on the aggregate board lot volume traded per order within the MOC on a given day. Order volume traded within the continuous trading session does not contribute to the cap calculation.

⁵ Continuous orders from a previous day that trade within the MOC facility are eligible to be capped irrespective of order placement time.

⁶ Rates are based on share volume executed, including for executions resulting from matches through Self Trade Management. Rates apply to all instruments and classes for which rates have not otherwise been specified. (Notes and debentures fees are applied per \$1000 par value traded.) Where applicable, a firm-wide net credit for Post-Open Continuous trades is first applied to offset the firm's other trading charges. Any remaining net credit is paid out to the firm.

⁷ Rates apply to all instruments and classes for which rates have not been otherwise specified.

⁸ Rates for removing displayed order volume apply when removing both the disclosed and undisclosed portion of iceberg order volume.

⁹ Rates applicable to 'Retail' apply for client orders sent by any Trader ID identified by the Member as an ID through which orders originating from a 'Retail Customer' (as defined by IIROC) are sent, but do not apply for any such ID that is for a 'DEA client' (as defined in National Instrument 23- 103) unless the 'DEA client' is a broker / dealer located in a non-Canadian jurisdiction that is acting as an "agent" for retail client order flow.

¹⁰ Applies to any IOC/FOK marked SDL or to any pegged Dark order marked IOC or FOK when removing resting Dark liquidity. See the TMX Equities Markets Order Type and Functionality Guide for a description of pegged Dark orders.

¹¹ Applies to Dark Limit orders and any other Dark orders that are not marked as SDL, IOC or FOK when executing actively against resting Dark liquidity. See the TMX Equities Markets Order Type and Functionality Guide for a description of all Dark orders.

¹² Rates for providing Dark order volume apply to executions of the undisclosed portions of iceberg order volume.

¹³ Rates apply to trades between two CMO+ orders. Where a trade involves a removing CMO+ order and a non-CMO+ providing Dark order, the CMO+ removing order is charged according to the CMO+ schedule and the non-CMO+ providing Dark order is charged the fee normally applicable in the circumstances for providing non-CMO+ Dark order volume.

¹⁴ Applies to CMO+ trades between the same broker, regardless of whether the broker has marked one or both sides of the trade as anonymous.

¹⁵ Rates apply to trades between two Conditional orders, and trades in the Conditional order book between Conditional orders and matched opted-in Dark orders. Rates related to removing and providing set forth in the table titled "TSX Post-Open Continuous Trades in Equities and Exchange Traded Funds" apply to trades in the Dark book between Dark orders and the residual portions of Conditional orders.

¹⁶ Applies to Conditional trades between the same broker, regardless of whether the broker has marked one or both sides of the trade as anonymous.
