

FORM 3D1- INFORMATION REQUIRED IN AN INFORMATION CIRCULAR FOR A REVERSE TAKEOVER OR CHANGE OF BUSINESS/FORM 3D2 – INFORMATION REQUIRED IN A FILING STATEMENT FOR A REVERSE TAKEOVER OR CHANGE OF BUSINESS

INSTRUCTIONS:

- (1) *This form is applicable to Issuers proposing to effect a Reverse Takeover (RTO) or Change of Business (COB) in accordance with Policy 5.2 – Changes of Business and Reverse Takeovers.*
- (2) *In circumstances where a meeting of securityholders is not required by the Exchange or is not otherwise required by law (e.g., where there will not be a change of auditor, election of new directors, name change, share consolidation, amalgamation, etc.), this form will be known as a filing statement. Where a meeting of securityholders is required by the Exchange or otherwise required by law, this form will be known as an information circular. In order to distinguish between the requirements for a filing statement and an information circular, all shaded portions of this document and any disclosure thereunder, shall be applicable solely to the information circular, and in those circumstances all references to “filing statements” may be ignored in preparing the information circular. Issuers preparing an information circular must comply with the disclosure requirements of the applicable securities legislation.*
- (3) *This form sets out specific disclosure requirements that must be followed in connection with an Issuer undertaking either an RTO or a COB (a Transaction). The objective of the filing statement/information circular is to provide full, true and plain disclosure of all material facts relating to the Target Company (or, if there is no Target Company, the Target Assets) and the issuer assuming completion of the Transaction in order for a securityholder to make an informed decision respecting the approval of such Transaction.*
- (4) *Terms used and not defined in this Form that are defined or interpreted in: (i) policies (collectively the “Policies”) of the TSX Venture Exchange Inc. (the “Exchange”) including, without limitation, Exchange Policy 1.1 – Interpretation and Exchange Policy 5.2 – Changes of Business and Reverse Takeovers; or (ii) National Instrument 14-101-Definitions, shall bear that definition or interpretation.*
- (5) *The terms “issuer”, “Target Company” and “Resulting Issuer”, unless otherwise specified, shall also include disclosure with respect to each such company’s subsidiaries, and investees. If it is probable that a person or company will become a subsidiary or investee, it may be necessary to also include disclosure with respect to the person or company. For this purpose, “investees” is defined to mean any entity that the Handbook recommends be accounted for by the equity method or the proportionate consolidation method.*

- (6) *In determining the degree of detail required a standard of materiality should be applied. Materiality is a matter of judgment in each particular circumstance, and should generally be determined in relation to an item's significance to securityholders, investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change a securityholder's or the Exchange's decision with respect to approving the proposed Transaction. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items should be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.*
- (7) *The disclosure must be understandable to readers and presented in an easy to read format. The presentation of information should comply with plain language principles. If technical terms are required, clear and concise explanations should be included. Disclosure must be factual and non-promotional. Statements of opinions, beliefs or views must not be made unless the statements are made on the authority of experts and consents are obtained and filed. The Exchange may require verification of such disclosure.*
- (8) *No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted. Information provided under one item of this Form need not be repeated under another item.*
- (9) *In respect of those items where a cross-reference is not specifically required, provide any appropriate cross-reference(s) to sections of the filing statement/information circular where further detail may be found.*
- (10) *Where information as to the identity of a person is disclosed, disclose whether the person is at arm's length to the issuer, Target Company or Resulting Issuer, as applicable or, if the person is a Non-Arm's Length Party, disclose the nature of the relationship. Where such Non-Arm's Length Party is not an individual, disclose the name of any individual who is an Insider of that Non-Arm's Length Party.*
- (11) *Where a Transaction is subject to Exchange Policy 5.9, the disclosure in this form must also include the relevant disclosure required to be included in an information circular, as mandated under Policy 5.9.*
- (12) *Whenever disclosure is required to be made of costs paid or to be paid by an issuer, Target Company, or Resulting Issuer, disclose the portion of the costs paid or to be paid to Insiders.*
- (13) *Except as otherwise required by this Form, the information contained must be given for a specified date not more than 30 days before the date on which it is first sent to any securityholder or submitted in final form to the Exchange. If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.*
- (14) *If the term "class" is used in any item to describe securities, the term includes a series of a class.*
- (15) *If the issuer is engaged in oil and gas activities (as defined in National Instrument 51-101), disclosure in the filing statement/information circular must be consistent with National Instrument 51-101 Standards of Disclosure for Oil and Gas Activities.*

2. A balance sheet as at the last day of the most recently completed interim period referred to in paragraph (1).

45.3 Additional Financial Statements or Financial Information of the Issuer Filed or Released

- (1) The issuer must include in the filing statement/information circular annual and interim financial statements of the issuer for a financial period that is more recent than the periods for which financial statements are required under Items 45.1 or 45.2 if, before the date of the filing statement/information circular, the financial statements for the more recent period have been filed on SEDAR.
- (2) If, before the date of the filing statement/information circular, financial information about the issuer for a period more recent than the financial period for which financial statements are required under Item 45.1 or 45.2 is publicly disseminated by, or on behalf of, the issuer through news release or otherwise, the issuer must include in the filing statement/information circular the content of the news release or public communication.
- (3) If annual financial statements are included in the filing statement/information circular for a financial year ended 120 days or less before the date of filing statement/information circular, the issuer may omit from the filing statement/information circular the financial statements for the most recently completed interim period of the issuer.

45.4 Audit Requirement for Financial Statements of the Issuer - Financial statements of the issuer included in the filing statement/information circular pursuant to Item 45.1 must be accompanied by an auditor's report without a reservation of opinion.

45.5 Exception to Audit Requirement for Interim Financial Statements of the Issuer - Despite Item 45.4, the issuer may omit from the filing statement/information circular an auditor's report for the issuer's interim financial statements required to be included under Item 45.2 or 45.3.

INSTRUCTIONS:

- (1) *Issuers are strongly encouraged to integrate the financial statements required under Item 45.1 into one set of financial statements covering off all required periods. Issuers integrating their interim and annual financial statements are not required to present both year-to-date and most recently completed interim statements of income, retained earnings and cash flows in accordance with Handbook paragraph 1751.16.*
- (2) *Issuers must ensure that the level of assurances required under NI 41-101 for the audit or review of financial statements accompany, or are included with, financial statements filed under Item 45.*

Item 46: Preparation of Target Company Financial Statements

46.1 Target Company Financial Statements - For the purposes of Items 46 to 49, the term "Target Company" includes any entity or combination of assets that is the subject of the RTO or COB. If the Target Company is a business (as this term is used in any General Prospectus Rules), financial statements of the Target Company are required by this Form.

46.2 Target Company Predecessor Entities and Combined Financial Statements

- (1) The financial statements of the Target Company required under Items 46 and 47 to be included in the filing statement/information circular include the financial statements of predecessor entities that carried on the business of the Target Company, even though the predecessor entities may have been different legal entities, and even though the Target Company has not existed for three years and was incorporated after the predecessor entities commenced operations.
- (2) The financial statements of the Target Company required under Items 46 and 47 must be presented on a combined basis where businesses carried on in different legal entities but under the same beneficial ownership or management are combined to form the Target Company or a predecessor entity to the Target Company.

INSTRUCTIONS:

- (1) *In this Item, General Prospectus Rules means National Instrument 41-101 – General Prospectus Requirements.*
- (2) *If the Target Company is not a business, Target Company financial statements under Items 46 and 47 are not required. In most cases, the Target Company is a business. Issuers concluding a Target Company is not a business should consider a pre-filing consultation with the Exchange on the conclusion.*
- (3) *A business is often carried on by the same beneficial owners but different legal owners. In cases where beneficial ownership or management of a business is unchanged, different legal ownership of the business should not be interpreted as a reason for not including Target Company financial statements in a filing statement/information circular. The period of existence for a Target Company is, for financial reporting purposes, the period when the Target Company has the same beneficial owners.*

- (4) *Financial statements covering periods of continuous beneficial ownership where legal ownership changes are often called "continuity-of-interest" financial statements. Financial statements covering more than one entity under common beneficial ownership are often called "combined" financial statements. There are cases where one set of financial statements will be prepared under both a "continuity-of-interests" and a "combined" basis.*
- (5) *If "continuity-of-interests" or "combined" financial statements cannot be prepared, additional financial statements for stand alone entities will be required to be filed in the filing statement/information circular.*
- (6) *Issuers are encouraged to consult with the Exchange on a pre-filing basis to ascertain what "continuity-of-interest" or "combined" financial statements should be in an filing statement/information circular.*

46.3 Target Company Divisional Financial Statements - The financial statements of the Target Company required under this Item to be included in the filing statement/information circular include stand-alone financial statements of the Target Company while it was a division, unit or component of a larger entity.

INSTRUCTIONS:

- (1) *The terms "divisional" and "carve-out" financial statements are often used interchangeably although a distinction is possible. Some companies maintain separate financial records and prepare financial statements for a business activity or unit which is operated as a division. Financial statements prepared from these financial records are often referred to as "divisional" financial statements. In certain circumstances, no separate financial records for a business activity are maintained; they are simply consolidated with the parent's records. In these cases, if the parent's financial records are sufficiently detailed, it is possible to extract or "carve-out" the information specific to the business activity in order to prepare separate financial statements of that business. Financial statements prepared in this manner are commonly referred to as "carve-out" financial statements. The guidance in Instructions (3), (4) and (5) applies to the preparation of both divisional and carve-out financial statements unless otherwise stated.*
- (2) *For the purposes of this instruction, the term "parent" refers to the vendor from whom the issuer purchased the business.*
- (3) *When complete financial records of the business to be acquired have been maintained, those records should be used for preparing and auditing the financial statements of the business. For the purposes of this section, it is presumed that the parent maintains separate financial records for its divisions.*
- (4) *When complete financial records of the business to be acquired do not exist, carve-out financial statements should generally be prepared in accordance with the following guidelines:*
 - (a) **Allocation of Assets and Liabilities** - *A balance sheet should include all assets and liabilities directly attributable to the business.*
 - (b) **Allocation of Revenues and Expense** - *Income statements should include all revenues and expenses directly attributable to the business. Some fundamental expenditures may be shared by the business and its parent in which case the parent's management must determine a reasonable basis for allocating a share of these common expenses to the business. Examples of such common expenses include salaries, rent, depreciation, professional fees, general and administration.*
 - (c) **Allocation of Income and Capital Taxes** - *Income and capital taxes should be calculated as if the entity had been a separate legal entity and filed a separate tax return for the period presented.*

- (d) **Disclosure of Basis of Preparation** - The financial statements should include a note describing the basis of preparation. If expenses have been allocated as discussed in Instruction 4(b), the financial statements should include a note describing the method of allocation for each significant line item, at a minimum.
- (e) **Statements of Assets Acquired, Liabilities Assumed, and Statements of Operations** - When it is impracticable to prepare carve-out financial statements of a business, an issuer may be required to include in its prospectus for the business an audited statement of assets acquired and liabilities assumed and a statement of operations. Such a statement of operations should exclude only those indirect operating costs, such as corporate overhead, not directly attributable to the business. If these costs were previously allocated to the business and there is a reasonable basis of allocation, they should not be excluded. Issuers are encouraged to consult with the Exchange on a pre-filing basis when this circumstance arises.
- (5) Issuers are encouraged to consult with the Exchange on a pre-filing basis to ascertain what divisional financial statements should be in the filing statement/information circular.

Item 47: Financial Statements of the Target Company

47.1 Annual Financial Statements of the Target Company - Subject to Items 47.3 and 47.8, the following annual financial statements relating to the Target Company should be included in the filing statement/information circular:

 - (a) each of the three most recently completed financial years ended more than 90 days before the date of the filing statement/information circular; or

 - (c) if the Target Company has not completed one financial year, the financial period from the date of formation to a date not more than 90 days before the date of the filing statement/information circular.
2. A balance sheet as at:
 - (a) the last day of the most recently completed financial year, if any, ended more than 90 days before the date of the filing statement/information circular;
 - (b) the last day of the immediately preceding financial year, if any; or
 - (c) if the Target Company has not completed one financial year, as at a date not more than 90 days before the date of the filing statement/information circular.

INSTRUCTIONS:

- (1) Issuers are strongly encouraged to integrate the financial statements required under Item 47.1 into one set of financial statements covering off all required periods.
- (2) Issuers must ensure that the level of assurances required under NI 41-101 for the audit or review of financial statements accompany, or are included with, financial statements filed under Item 47.

- (3) *A Target Company wishing to use either Foreign GAAP or International Financial Reporting Standards should review National Instrument 52-107 Acceptable Accounting Principles, Auditing Standards and Reporting Currency for information about acceptable GAAP principles and auditing standards and the required reconciliation of different principles or standards.*

47.2 Interim Financial Statements of the Target Company – Subject to paragraph (2) of Item 47.3, a filing statement/information circular must include the following interim financial statements of the Target Company:

1. Statements of income, retained earnings and cash flows for the most recently completed interim period that ended more than 60 days before the date of the filing statement/information circular and for the comparable period in the immediately preceding financial year.
2. A balance sheet as at the last day of the most recently completed interim period referred to in paragraph 1.

INSTRUCTION:

- (1) *Target Companies integrating their interim and annual financial statements are not required to present both year-to-date and most recently completed interim statements of income, retained earnings and cash flows in accordance with Handbook paragraph 1751.16.*

47.3 Additional Financial Statements or Financial Information of the Target Company Filed or Released

- (1) If, before the date of the filing statement/information circular, financial information about the Target Company for a period more recent than the financial period for which financial statements are required under Item 47.1 or Item 47.2 is publicly disseminated by, or on behalf of, the Target Company through news release or otherwise, the filing statement/information circular must include the content of the news release or public communication.
- (2) If the Target Company's annual financial statements are included in the filing statement/information circular for a financial year ended 90 days or less before the date of the filing statement/information circular, the financial statements for the most recently completed interim period of the Target Company may be omitted from the filing statement/information circular.

47.4 Audit Requirement of Financial Statements of the Target Company - Financial statements of a Target Company included in the filing statement/information circular must be accompanied by an auditor's report without a reservation of opinion.

INSTRUCTIONS:

- (1) *Any audit report containing a reservation of opinion is a significant filing deficiency. There are limited cases where the Exchange may permit the inclusion of an audit report containing a reservation of opinion. Issuers should consult on a pre-filing basis with the Exchange in respect of any audit report containing a reservation of opinion.*

47.5 Exception to Audit Requirement for Interim Financial Statements of the Target Company - Despite Item 47.4, an auditor's report for the Target Company's interim financial statements required to be included under Item 47.2 or Item 47.3 may be omitted from the filing statement/information circular.

47.6 Exception to Audit Requirement for Financial Statements in Certain Circumstances - Despite Item 47.7, a Target Company may omit from the filing statement/information circular an auditor's report for its financial statements for the second and third most recently completed financial years for which financial statements are included in the filing statement/information circular if:

- (a) the auditor has not issued an auditor's report on the financial statements;
- (b) the most recently completed financial year for which audited financial statements are included in the filing statement/information circular is not less than twelve months in length; and
- (c) the Target Company is a junior issuer (as that term is defined under applicable General Prospectus Rules).

47.7 Exception to Annual Statement Requirement if More Recent Annual Financial Statements Included - The Target Company's financial statements for the earliest financial year otherwise required under Item 47.1 paragraph (a) may be omitted from the filing statement/information circular if audited financial statements of the Target Company are included in the filing statement/information circular for a financial year ended 90 days or less before the date of the filing statement/information circular.

47.8 Exception to Annual Financial Statement Requirement if Financial Year End has Changed - Despite Item 47.1, if a Target Company changed its financial year end once during any of the financial years for which financial statements are required to be included in the filing statement/information circular, the Target Company's financial statements for the transition year may be included in the filing statement/information circular in satisfaction of the financial statements for one of the years under Item 47.1 provided that the transition year is at least nine months.

INSTRUCTION:

- (1) *Target companies that changed a financial year-end during the period for which financial statements are included in a filing statement/information circular should review National Instrument 51-102 Continuous Disclosure Obligations for the definition of a transition year and section 4.8 of that instrument for other guidance.*

Item 48: Target Company Acquisitions or Proposed Acquisitions of Other Businesses

48.1 Target Company Acquisitions or Proposed Acquisitions of Other Businesses – If a Target Company made a significant acquisition or a significant disposition (as such terms are used in applicable General Prospectus Rules) during its three most recently completed financial years, or proposes to make an acquisition or disposition of a business (other than the Issuer), provide the disclosure required under National Instrument 41-101 – *General Prospectus Requirements* as applicable, as if the Target Company was the issuer.

INSTRUCTIONS:

- (1) See the instructions to Item 46.2 about what constitutes a business.
- (2) The significance of an acquisition should be measured against the Target Company, not the issuer.

Item 49: Financial Statements of the Resulting Issuer

49.1 Pro Forma Financial Statements for the Resulting Issuer -

- (1) Subject to Item 49.2, the following *pro forma* financial statements of the Issuer should be included in the filing statement/information circular:
 1. A *pro forma* balance sheet of the Issuer prepared as at the date of the Issuer's most recent balance sheet included in the filing statement/information circular to give effect to, as if they had taken place as at the date of the *pro forma* balance sheet, the acquisition of the Target Company.
 2. A *pro forma* income statement of the Issuer prepared to give effect to the acquisition of the Target Company for each of the financial periods referred to in the following paragraphs, as if it had taken place at the beginning of the most recently completed financial year of the Issuer for which audited financial statements are included in the filing statement/information circular:
 - (a) the most recently completed financial year of the Issuer for which audited financial statements are included in the filing statement/information circular; and
 - (b) the most recently completed interim period of the Issuer for which financial statements are included in the filing statement/information circular.
- (2) The Issuer must include in the *pro forma* financial statements a description of the underlying assumptions on which the *pro forma* financial statements are prepared, cross-referenced to each related *pro forma* adjustment.
- (3) If both of the following conditions are satisfied:
 - (a) the *pro forma* income statement is not prepared using the income statement of the business for the pre-acquisition period, and
 - (b) the financial year end of the Target Company differs from the Issuer's year end by more than 93 days,then despite paragraph 2 of subsection (1), for purposes of preparing the *pro forma* income statement, the income statement of the Target Company must be for a period of twelve consecutive months ending no more than 93 days from the Issuer's year end.
- (4) Subject to paragraph (3) above, if the *pro forma* income statement referred to in clause (1)2(a) above includes results of the Target Company which are also included in the *pro forma* income statement referred to in clause (1)2(a), there must be disclosed in a note to the *pro forma* financial statements of the revenue, expenses, gross profit and income from continuing operations included in each *pro forma* income statement for the overlapping period.

49.2 Exception for Pro Forma Income Statements – Despite Item 49.1, *pro forma* income statements are not required to be included in a filing statement/information circular where all of the following conditions are met:

- (a) The Issuer has no operations other than interest income and costs of pursuing an RTO or COB;
- (b) The Target Company has not made a significant acquisition or disposition and does not propose to make a significant acquisition or disposition requiring disclosure under Item 49; and
- (c) The Issuer discloses in the notes to its *pro forma* balance sheet,
 - (i) a continuity of its share capital on a *pro forma* basis giving effect to all the transactions recorded on the *pro forma* balance sheet; and
 - (ii) a statement of its *pro forma* effective income tax rate applicable to consolidated operations.

INSTRUCTIONS:

- (1) *In most cases, pro forma income statements combining the results of operations of the Target Company with the Issuer combines the results of a going concern with a shell company have little value.*
- (2) *Issuers should carefully consider the Target Company's history before concluding that pro forma income statements should not be included in the filing statement/information circular. Issuers are encouraged to consult with the Exchange on a pre-filing basis with respect to this exception.*
